

Presto! PageManager® 7 Deluxe

Advanced Management Capabilities

Presto! PageManager 7 Deluxe provides everyone in your organization an efficient way to control and share documents. Convert piles of papers and photos into digital files that you can easily find, edit and use, and effortlessly share them with other computers.

Open Architecture

View files stored in any location, such as HDD, CD-ROM, storage cards, and more. Clear thumbnails are provided to allow you to quickly find documents without having to open them.

Video/Audio Playback

With Video Playback, you can play video and audio files in the thumbnail window. Many kinds of file formats are supported, including MPEG, AVI, MP3, WAV, and more.

OCR Documents

Built-in award-winning OCR engine puts powerful OCR capabilities and full-text indexing at your fingertips. It keeps the format of your text and columns. You can either send the document to your favorite word processor or spreadsheet, or save it as HTML for instant web publishing.

Scan Direct!

Cut your scanning time in half! With TWAIN-Express, you can bypass your scanner's TWAIN User Interface and Scan Direct to your printer, fax, e-mail, or favorite application. Over 100 popular applications are supported.

File Stacking

Stack associated files for one-click, simultaneous opening. Once stacked, the files will become a single, multi-page document. No need to look for your files; just click on the icon and all of them will open.

Embedded Microsoft Office viewer

Browse Microsoft Office documents, no need to launch Microsoft Office or even have it installed. Presto! PageManager can even let you view these files.

Annotate it

Add information to all digital documents. Besides audio annotation, you can also highlight interesting phrases, draw arrows to important information, add sticky notes with explanations, or add text captions to photos.

Powerful Search Function

Use easy search or fuzzy search to quickly organize and find documents just by typing in a word, phrase, or annotation that appears in the document.

NEW FEATURES!

★ Information Sharing through Networks

A network group function allows you to share information among your group members under the same network segment.

★ Supports SharePoint 2001/2003

You are able to transfer documents from your PC to a Microsoft SharePoint Portal Server Workspace by just using a drag and drop operation. It provides a seamless method to connect users, knowledge, and information.

★ Built-in FTP & Web Browser

Built-in FTP utility ensures that you no longer need to leave Presto! PageManager 7 Deluxe to upload or download from an FTP server. And with the Internet viewer, you can have even greater control of your content whether on a local storage device or on the Internet.

★ Supports Lotus Notes

Export your data to the Lotus Notes 5.0 database system. A variety of export file formats are supported, including TXT, HTML, PCX, TIFF, BMP, GIF, and JPEG.

▶ Share Files in PDF Format

Save multiple document and image files as PDF files for easy and secure distribution. Presto! PageManager 7 Deluxe can read and create PDF files from other file formats allowing greater ability to share documents with others.

▶ Files Back-Up

Now you can back up or restore your important files to HDD, CD, or DVD. The saved files will automatically be compressed as a PMF file, a PageManager Backup file format.
